

INTEPLAST GROUP
W. Ralston

Industrial Film

Inteplast Group W. Ralston is one of Canada's leading manufacturers of polyethylene blown film. As a Canadian owned and operated company, we manufacture, market and provide services to a diversified group of commodity markets including:

- Construction & Agricultural Film
- Vapour Barriers CGSB Approved
- Industrial and Institutional Can Liners
- Pound Bags
- Retail Garbage Bags
- Food Wrap for Home and Institutional Use
- Retail Drop Sheets
- Compost Bags

4000 Series

General Purpose Polyethylene Film

The 4000 Series is made using premium blends of "linear rich" polyethylene resin. We offer an extensive stock size portfolio as well as custom made "poly" using different "slip" components, extra UV stabilizers, special additive packages, and a dozen other features to fit the specific needs of the Canadian film marketplace.

Main properties:

- All our film is packed in clear PE sleeves with product identification labels both inside and outside the sleeve.
- All pallets are wrapped for safer transportation and easier storage.
- Colour coded labels are provided for identification of size and product type.
- Available in all standard sizes.
- Available with custom formulas.
- Available in custom lengths and widths.
- Warehoused in three locations across the country.
- Linear rich formula provides superior strength.

5000 Series

Vapour Barrier Film - CGSB

The 5000 Series is made from prime polyethylene resin in full 6 mil gauge (150 um) for stock sizes. Custom gauges are also available.

This is a special purpose construction film to be used as a long lasting vapour barrier within wall cavities and is designed to exceed the criteria specified in C.G.S.B. Standard CAN/CGSB-51.34-M86.

Inteplast Group W. Ralston was the first Canadian manufacturer to be awarded CGSB status on this product.

Main properties:

- Uniform 6 mil gauge.
- Improved outdoor weather resistance to prevent premature damage from exposure to ultraviolet light.
- Made from a quality virgin LLDPE blend.
- Longer oxidative induction time protects against premature degradation.
- Available in custom lengths and widths.
- Specially packaged to inhibit UV damage.
- Labels are provided for easy identification of size, both inside and outside the sleeve.
- All pallets are overwrapped.
- Warehoused in three locations across the country.

Ralston Quality Plastics
100% CANADIAN

Inteplast Group W. Ralston operates manufacturing facilities in Eastern and Western Canada serving both the retail and industrial markets. Ralston is a leading manufacturer of Trash Bags, Can Liners, Films and Vapour Barriers with product innovation such as blends of virgin & recycled plastics, antibacterial agents, and certified compostable plastics.

Inteplast Group W. Ralston is committed to ongoing product development in positive support of solid waste management issues.

2100 Series

Compostable

- Certified compostable by BNQ 9011-911 and BPI ASTM D6400

2400 Series

Food Grade

- Clear
- Approved for food contact by Agriculture Canada

2500 Series

Premium Black

- Virgin rich blend of recycled post industrial LLDPE and premium
- Hexene Resin
- The 2500 Series is our thickest line
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

2600 Series

Value Plus - Black

- Economical lighter gauge
- Recycled resin
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

2700 Series

Recycled - Black

- Similar to the 2500 Series
- Lighter gauge with a higher content of recycled resin
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

2800 Series

High Density - Frosted

- Made from quality high molecular weight - high density resin
- These bags have exceptional strength and are ideal for heavy, wet trash
- Packed in mini-rolls

2900 Series

Transparent and Colours

- Made from Hexene resin allowing significant downgauging, while still maintaining superior characteristics
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

Ralston Quality Plastics
100%  CANADIAN

Each Series has its own unique formulation providing the broad spectrum of qualities and economies necessary to satisfy this demanding market.

- Complete range of sizes.
- Available in different colours (2900 Series).
- Outstanding elongation and tear characteristics.
- Custom sizes and colours also available.

User Friendly Cartons!

- Unique one-at-a-time end dispensing cartons allow easy access and ease of stacking.
- All cases have colour coded wrap around labels clearly identifying series, size, count, colour and strength.
- All linear low density series case counts are the same by strength and size.
- Cartons are 70% recycled material with minimum 50% post consumer.
